beach front between Illinois and New York avenues to-day presents a scene of ruin and desolation. Of the many fine hotels which were situated in the district visited by yesterday's fire there remain standing the unburned portion of the Windsor Hotel at the board walk and Illinois avenue, and the charred framework of the Rio Grande Hotel on New York avenue. Between these two structures lies a blackened waste. scarcely a stick being left to identify any one of the numerous buildings destroyed by the fire. The shell of the Academy of Music remains standing, and this is notable as the theater was the only brick building in the burned area. All through the night the beach, board walk and avenues near the scene of the fire were patrolled by the Morris Guards and Company L of the National Guard. During the day the soldiers were relieved from duty, the police force of the city being adequate to handle the crowds which visited the scene after the While great sympathy is generally ex-

The municipal authorities were the first to begin the work of rebuilding and to-day, pursuant to the action of the City Council last night, a force of workmen was put to work repairing the board walk. A carload of planks, which were to have been used in renovating another section, were used to reconstruct a portion of the burned walk. Many articles of bric-a-brac and household furniture which were not lost in the fire were destroyed in removing to places of safety. The beach and vacant lots in the district of the fire are strewn with tables, crockery, bedding, kitchen utensels and rugs, and on New York avenue a Grand piano stands alone in about a foot of mud. The insurance underwriters maintain that of them claim to carry no insurance and those that are insured say the damage to increase the total loss.

Second Time in a Year.

PITTSBURG, April 4 .- For the second time within a year the Barker, Williams & Co.'s furniture installment house on Penn avenue was burned out to-night. The fire originated on the ninth floor from some unknown cause, where it was confined, but the immense amount of water thrown into the building completely ruined the stock on the other eight floors. The loss on the building is only \$5,000. Barker, Williams & Co.'s loss is \$40,000, well insured: the Household Credit Company, next door, lost \$25,000, insured, and other adjoining tenants \$2,000.
